Back from  
this dream.

First thing first, gotta see whats new. Bet sum crazy.

Joshua checks his smartphone. As soon as he turns it on, all the notifications of the night come flooding in. His eyes glare up brightly with a light orange tint. The dopamine rushes through his body, awakening his mind and filling his body with energy and excitement. His usually morning anxiety subsides and his longing for a cup of coffee increases.

Regular fucking room. Shits crazy. These places all look the same.

I mean she as well. Better make my way out. Fuck where my shirt at?

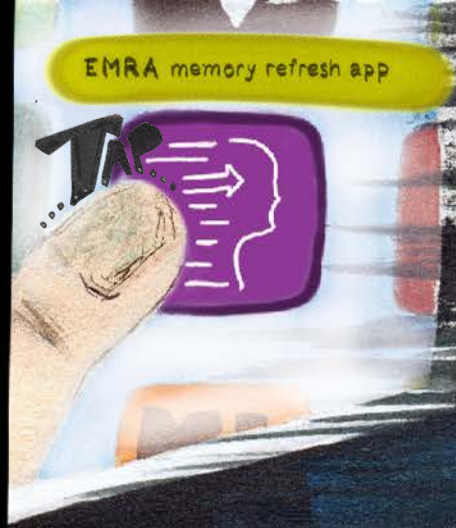

With his phone in his hand he stands up and looks around the room.

This computer dusty as fuck.

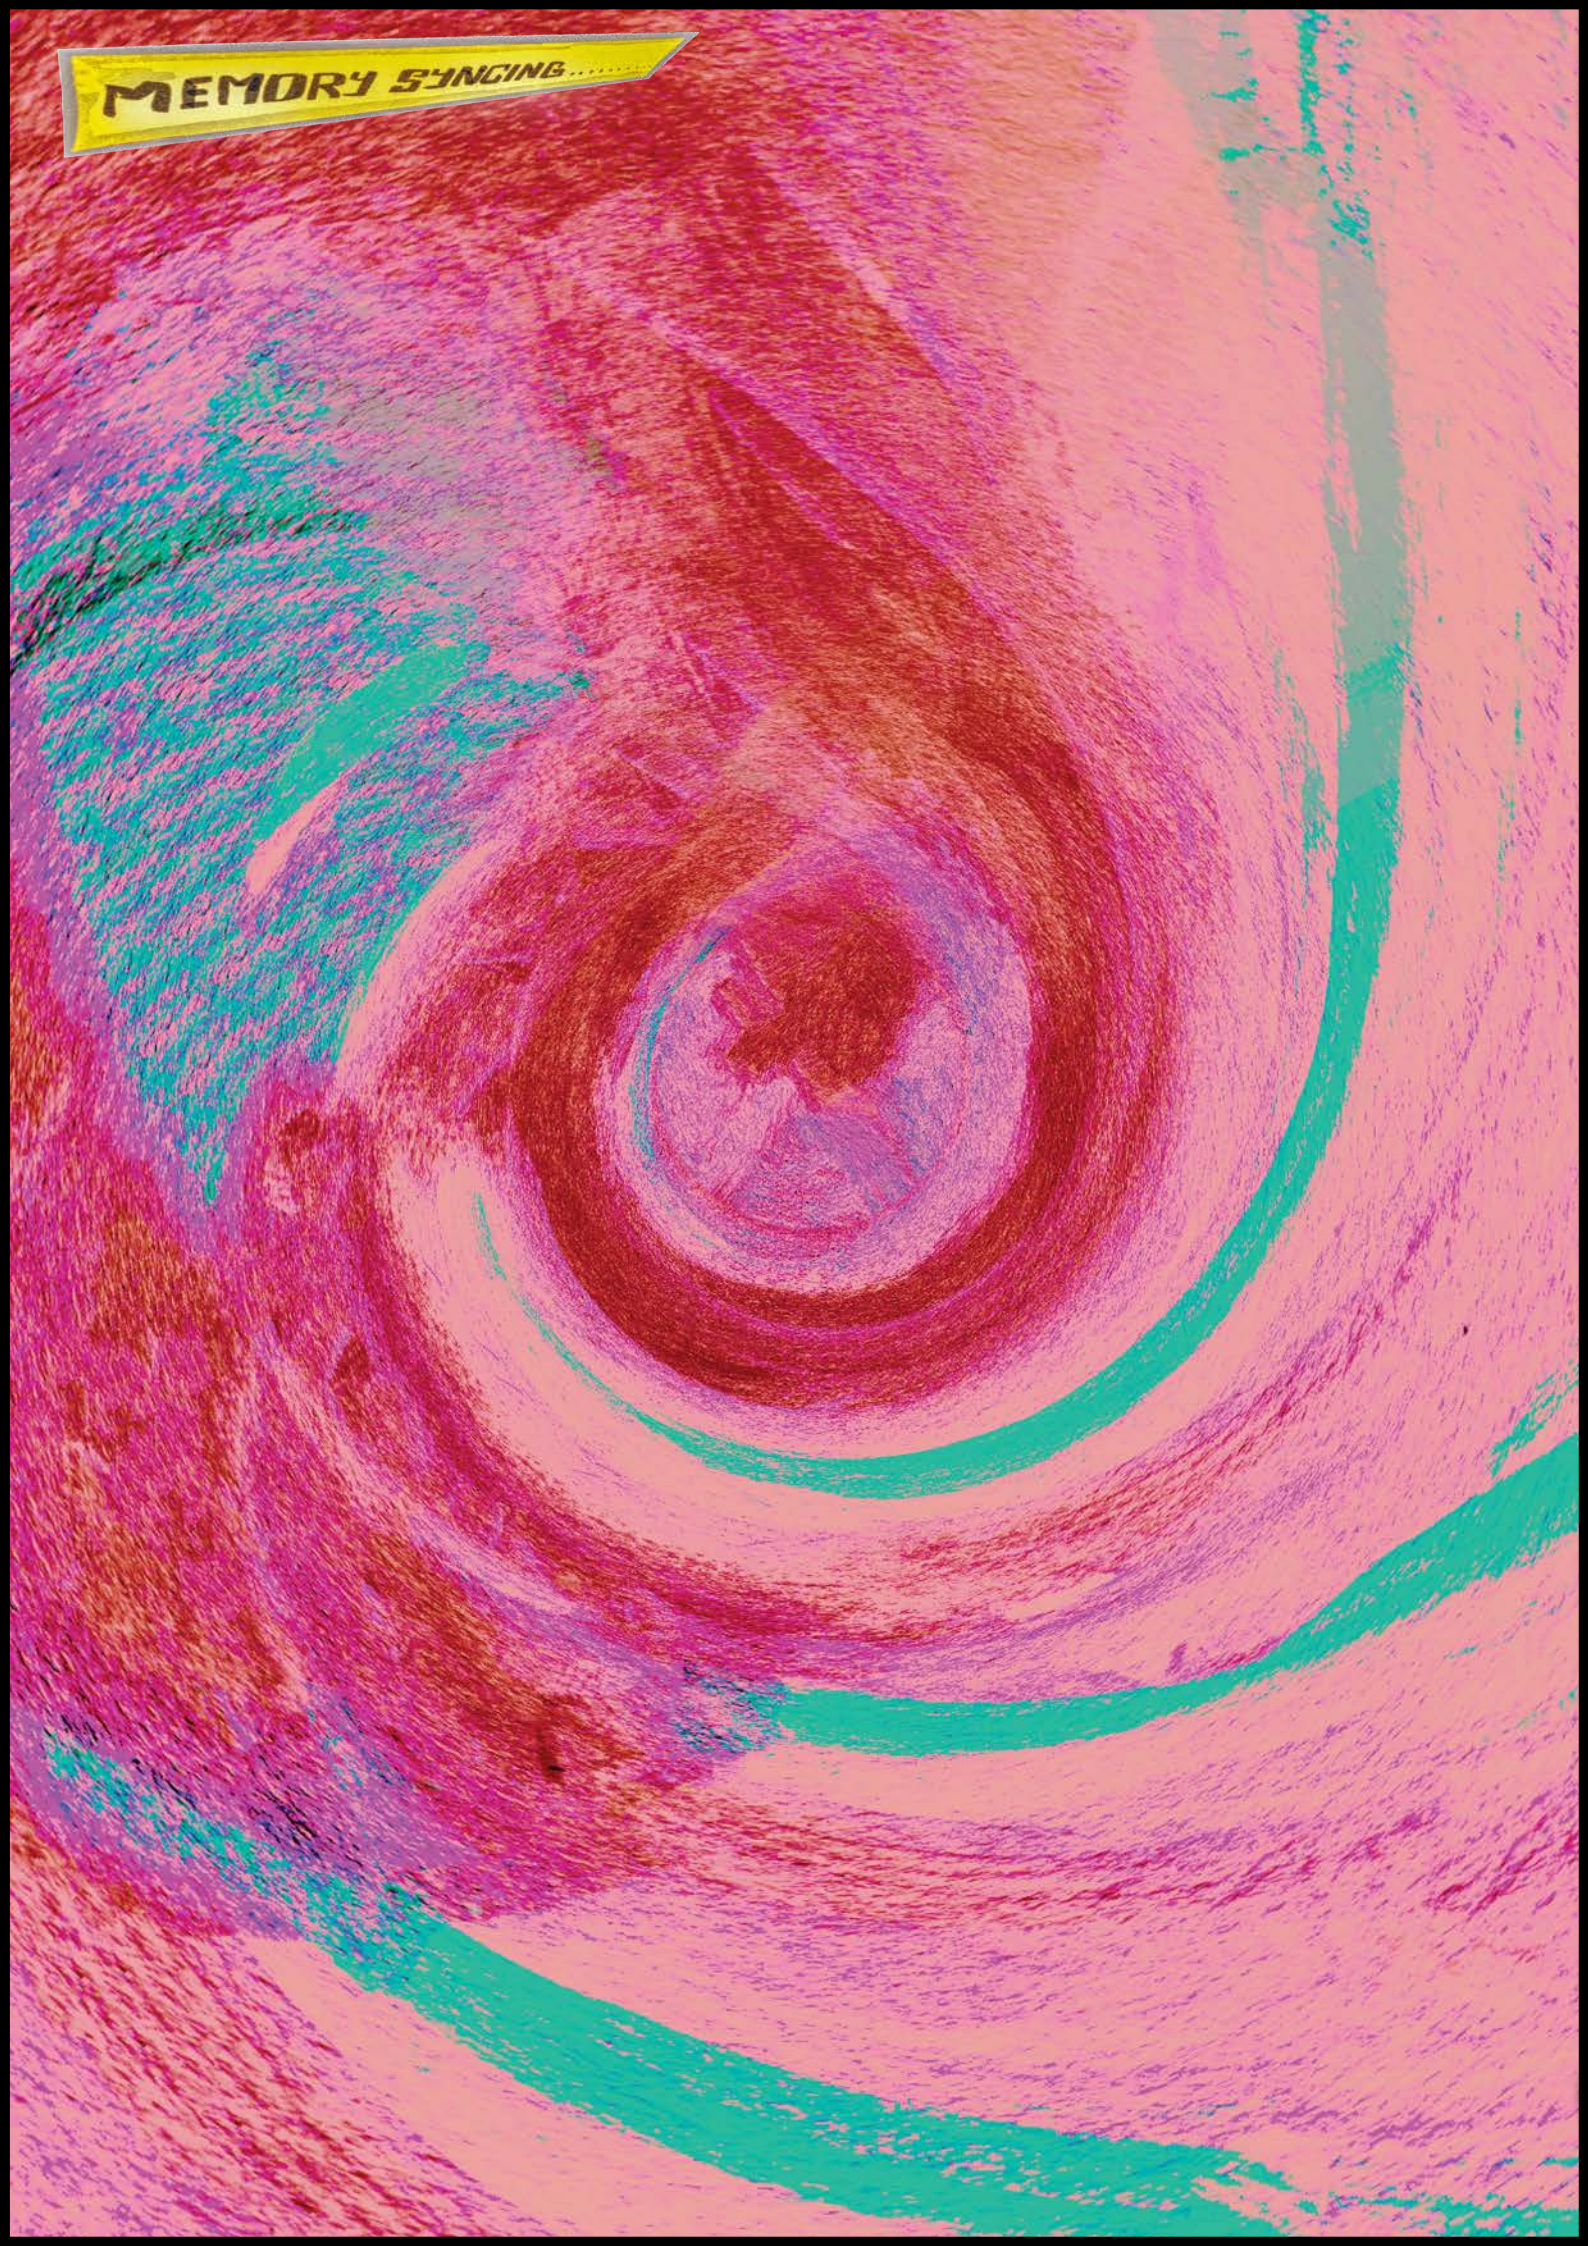

Joshua Thinks.

Man I need a refresher of last night...

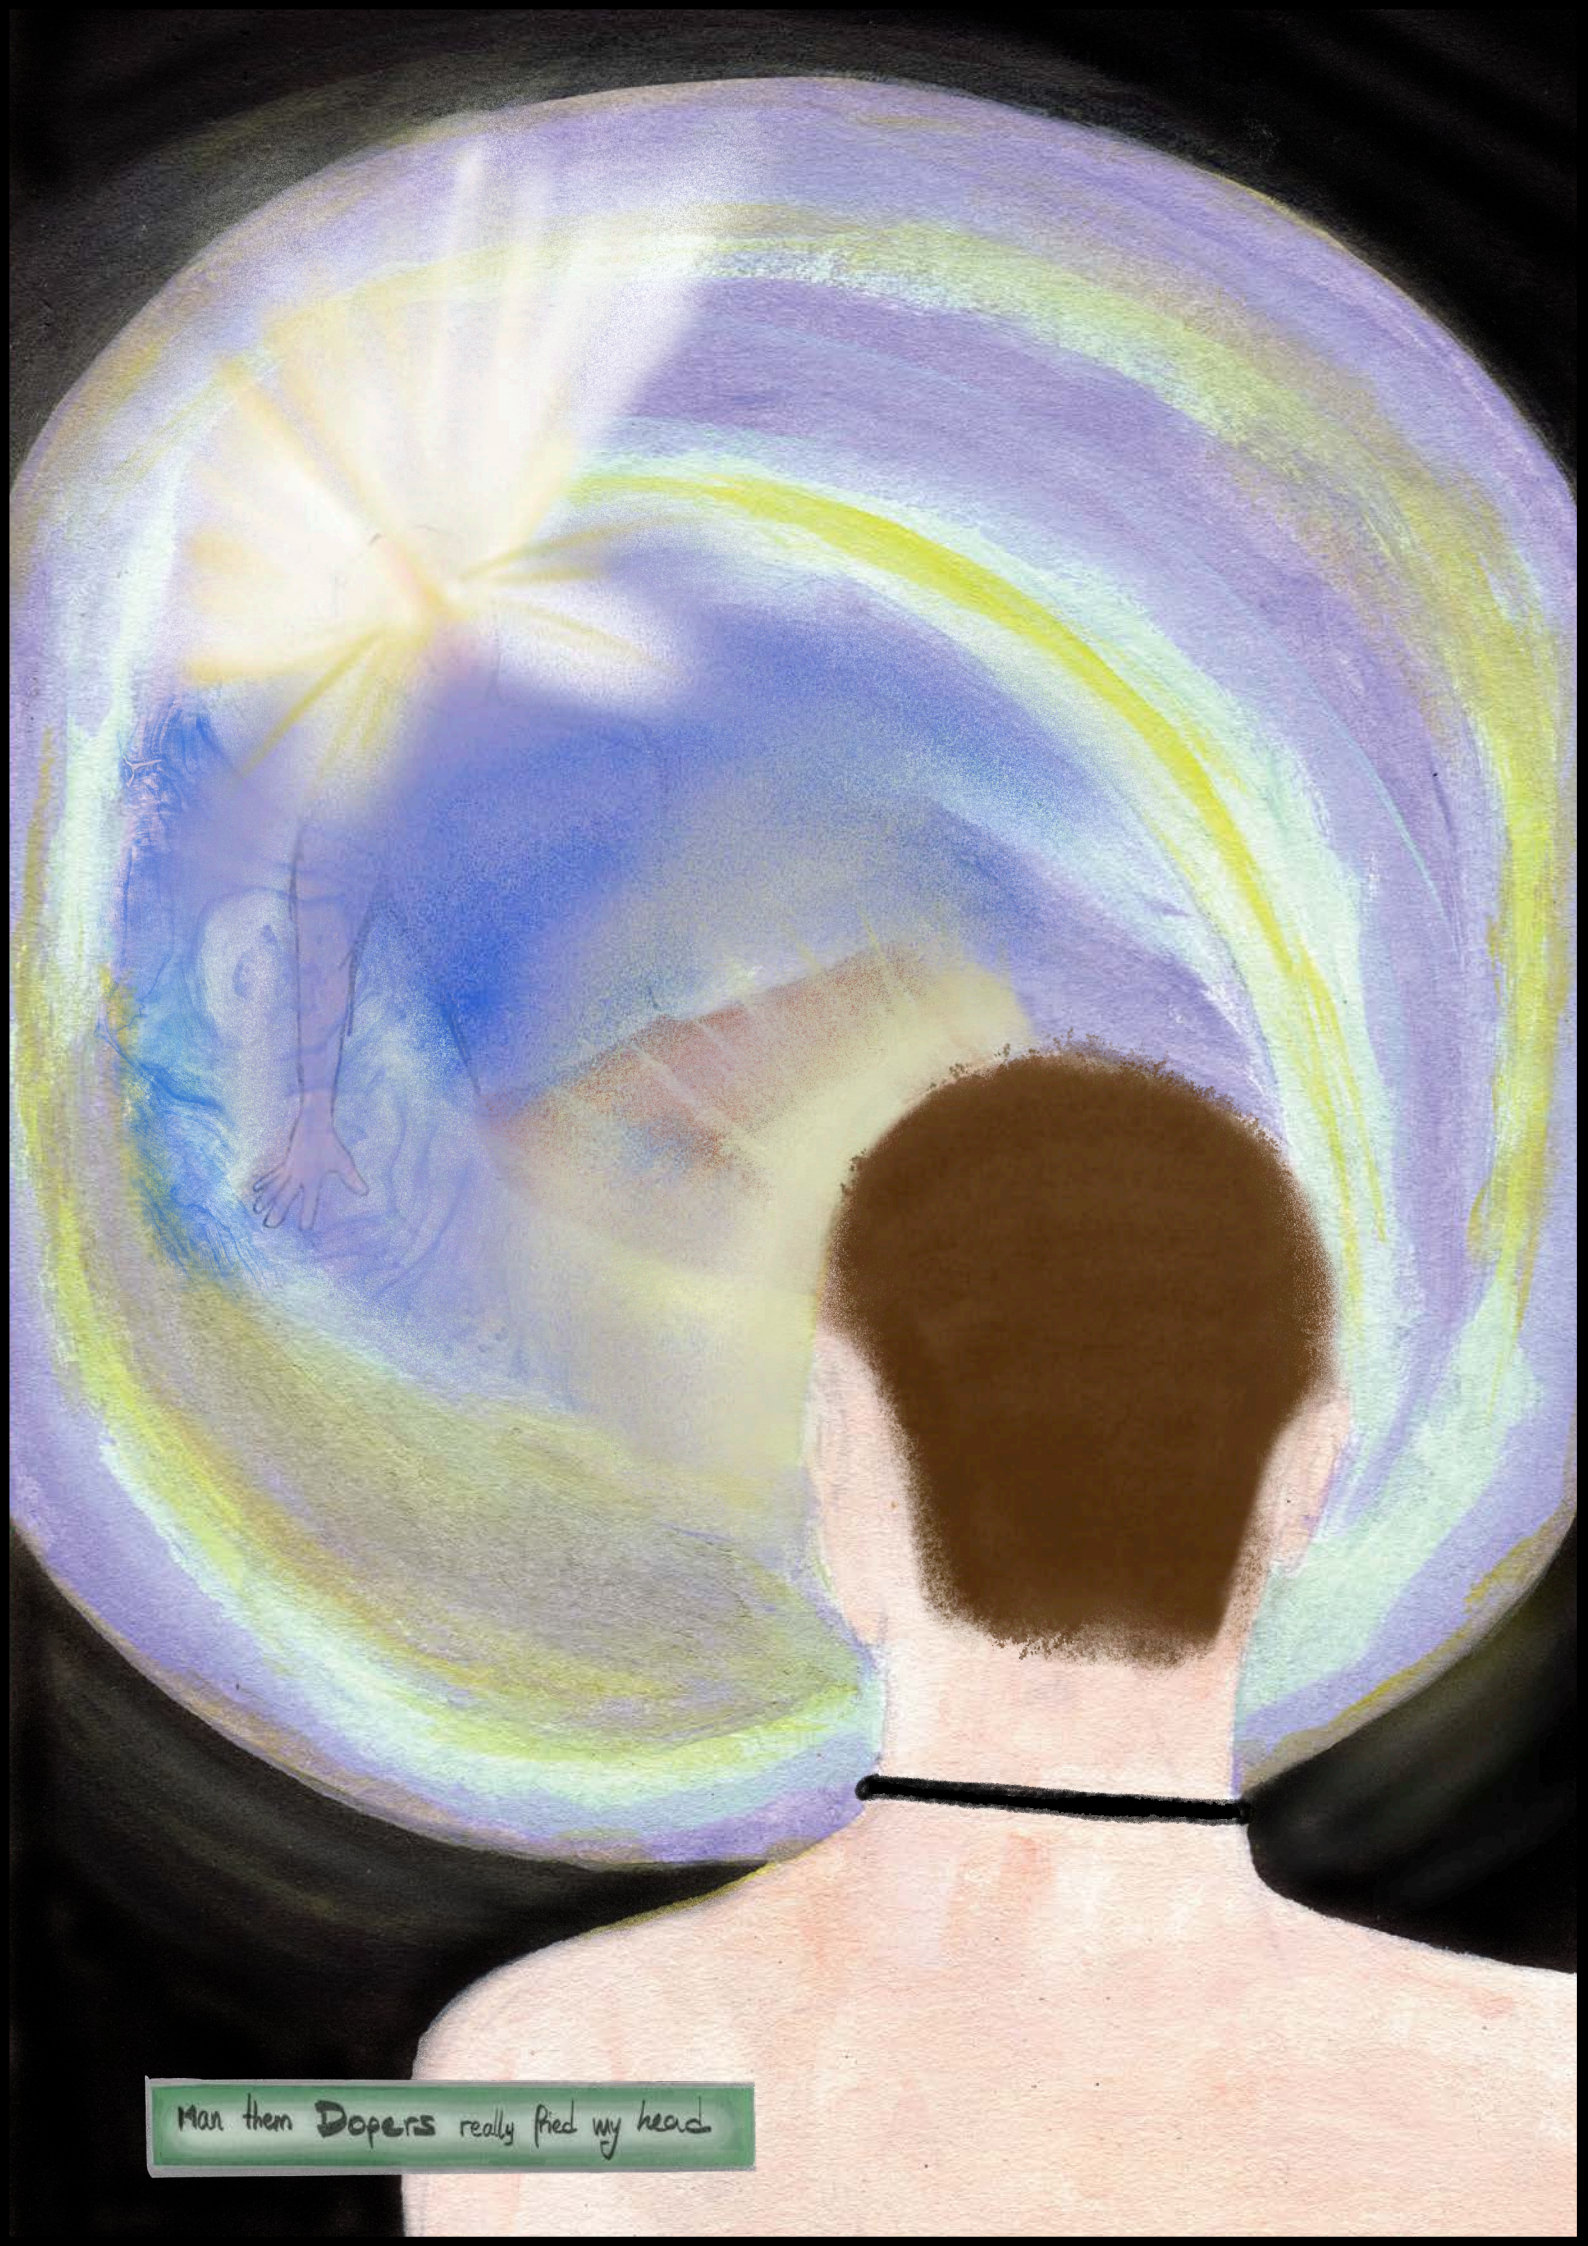

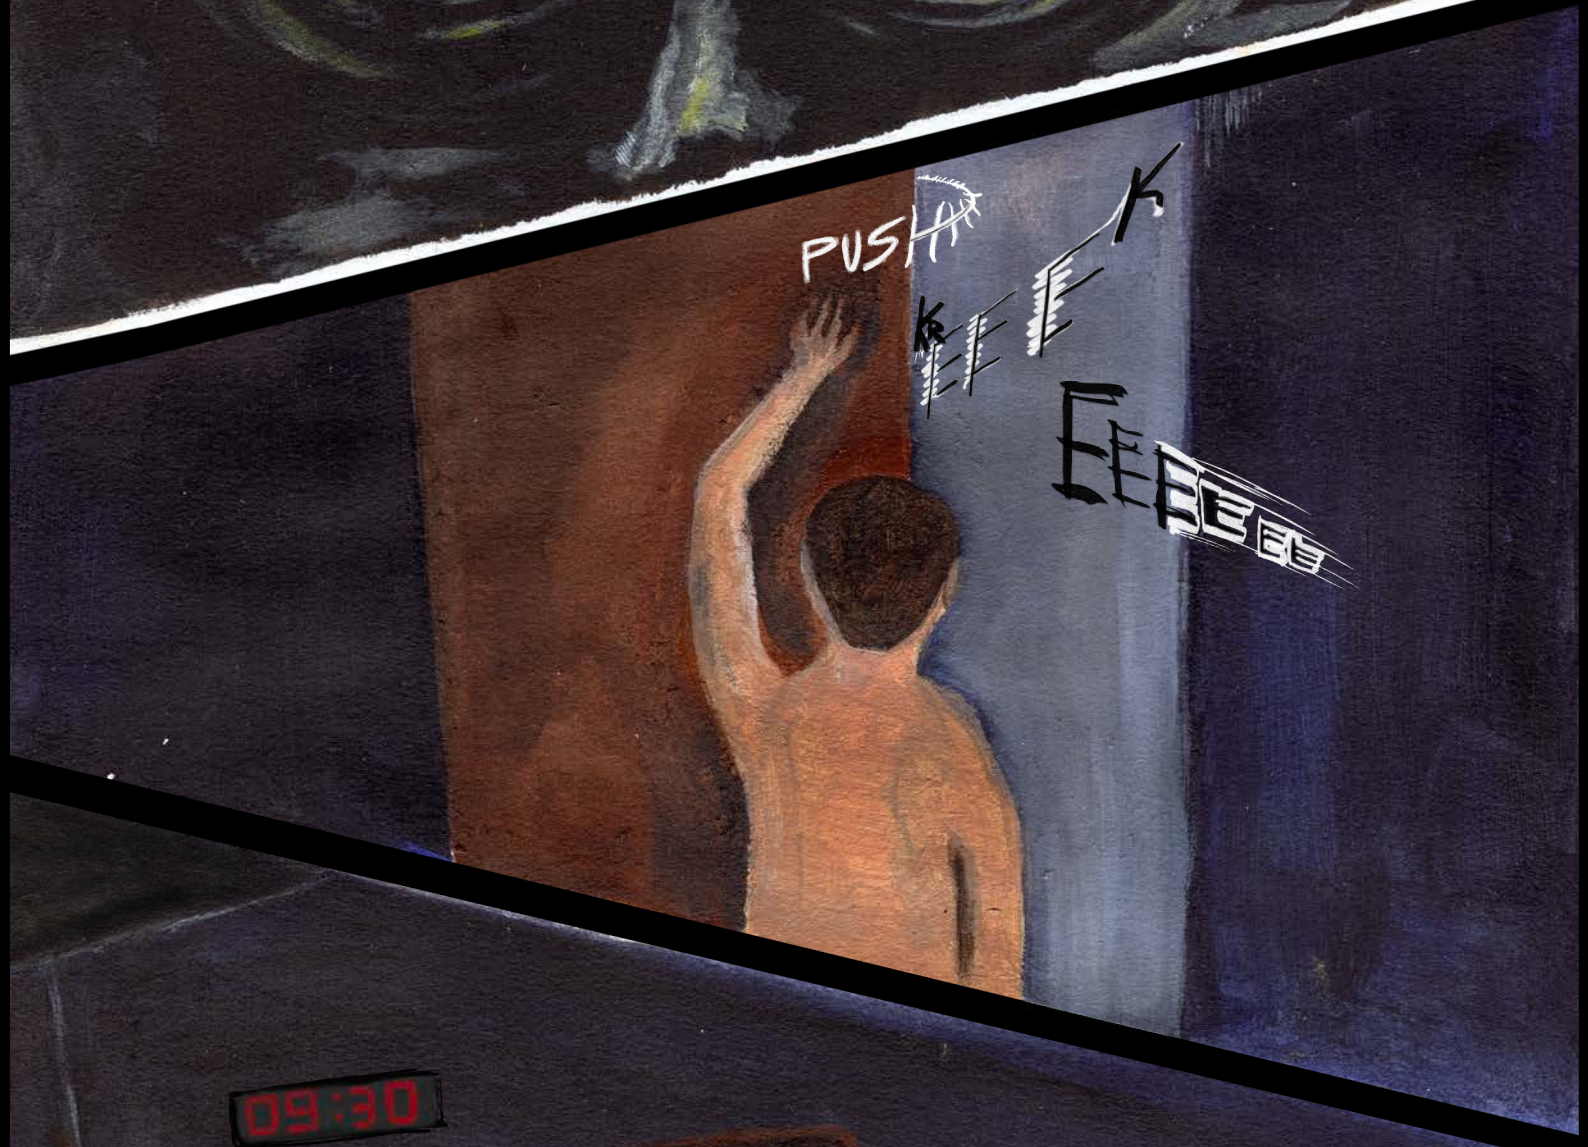

**MEMORY SYNCING.....**
